Our Story

Whitewood Industries, John Thomas Furniture's parent company, was founded in 1982 as a manufacturer of solid wood, ready-to-finish furniture.

As a 37 year old company, we've evolved greatly into becoming a leading supplier of both finished and unfinished furniture throughout the U.S.

Proudly, we're based in Thomasville, N.C. (a neighboring city to High Point, NC, the city known and widely recognized as being 'the furniture capital of the world') where we employ over 300 dedicated North Carolinian craftsmen.

Today, there are four divisions under our company brand: Whitewood Ready-To-Finish (unfinished furniture), John Thomas Furniture (casual dining and custom finish programs), International Concepts (a supplier to specialty retailers) and Custom Contract Furnishings (designer/manufacturer contract upholstery).

With this, we've kept one thing intact, one mission... Offer the most beautiful, quality home furnishings at a tremendous value.

We hope you'll choose John Thomas Furniture to be your next home furnishings. We do appreciate your confidence and trust, and will consider it an honor to become part of your home.

www.johnthomasfurniture.com

An Employee Owned Company

Quality starts with a vision.

Many companies have great looking furniture, but looks aren't everything, and they're certainly not enough. It's what's on the inside that counts. Furnishings are an investment, a big, long-term investment and just like with any investment, you can make a good one or a bad one. We're proud of our quality story, it's one of the biggest things that sets us apart, and above.

Our solid wood...

More than ever, being environmentally conscience and responsible, is a part of our lives. Manufacturing process, waste management, use of natural resources and more affect after our quality of life. We recognize that home furnishings too have a positive or negative impact on our environment. For this reason, as well as the sheer beauty and quality of our wood, over 95% of all our products are proudly crafted in Parawood. An extremely dense plantation grown hardwood. Parawood is the tree in which latex is produced (often referred to us rubberwood). For approximately 10+ years the tree is tapped to extract the latex, much the same manner syrup is tapped from a maple tree. At that average time the tree naturally ceases to produce latex and is cut down for manufacturing of furniture. For every tree cut, a new tree is planted as a replacement, harmoniously maintaining natural balance.

Parawood beyond the bark: Scientific name - Hevea Brasiliensis, Density - 7+ (similar or Birch or Ash), Strength group - B6 (same as maple). All this making it one of the most widely used hard woods in home furnishings and a very durable hardwood.

Our finish...

It's what sets us apart. We use pre-catalyzed clear conversion coatings. Our coatings are non-yellowing HAP's free (hazardous air pollutants), while offering outstanding UV resistance. All our coatings have undergone rigorous quality testing to verify performance and application characteristics. We received highest resistance ratings against the following household chemicals: Vinegar, Juices, Ketchup, Olive Oil, Hot/Cold Water, Nail Polish Remover, Ammonia, Alcohol, Windex, Lysol, 409, Coffee, Wine, among others. While no natural wood product/finish is indestructible we do recommend the following tips for care and extended life: cleaning is easy – a damp cloth is all that's needed, avoid placing your furniture in direct sunlight for extended amounts of time, avoid placing your furniture very near heating vents or wood burning stoves, and lastly we do recommend using placemats and/or table mats for further protection.

Our tables feature...

- Reinforced Corner Block Bolts with 1/2" bolts & locking nuts/washers for maximum stability.
- Folding Leaf Hinges to enable the leaf to store flat as well as add leaf apron protection.
- Apron Stabilizers to ensure strength and stability of the table.
- Metal Ball Bearing Extension Glides (instead of other standard wood gear extensions) to make for a seamless, a smooth transition from smaller to larger dining.
- Gap Covers to ensure that aprons are continuous and allow for minor table expansion due to drastic climate changes.
- Self Storing Butterfly Leaf (Leaves) to save space.

Our chairs feature...

- Leg Stretchers to ensure chair legs do not loosen from strenuous and everyday use.
**Leg Stretchers are both glued and screwed in place.*
- Solid Wood Construction (all parts and components)
- Reinforced Corner Block Bolts with 1/4" bolts & locking nuts/washers for maximum stability.
**Custom Finished Chairs are equipped with metal glides and leveled ensuring stability.*
**Custom upholstery seat options are all manufactured in the U.S.*

Our bedroom/storage furnishings feature...

- Full extension metal glides
- English and French dovetail drawers
- Solid wood construction

Our commitment...

All of our furniture is guaranteed for one year against all manufacturing defects. All damages such as scratches, gashed, broken corners, and finish or fabric imperfections must be reported within 30 days from the date of delivery.

Care...

- Sunlight is one of nature's elements that can cause damaging effects to your new furniture. It is preferable not to expose your furniture to direct sunlight for long periods of time and to leave your table leaf extensions in place as to ensure the uniform aging of your finish.
- Our finishes take up to 21 days after the delivery date to fully cure. Prior to this date, use your furniture with care.
- Cleaning is easy – a damp cloth is all you need. For everyday use, we recommend using fabric placemats, trivets with FELT protectors, and table pads to protect against scratches, dings or dents and immediately wiping away any spilled liquids.
- Avoid putting extremely hot or cold objects in direct contact with a wood surface. Extreme temperatures can cause discoloration to the wood finish and may cause permanent and irreparable damage.

SELECT HD

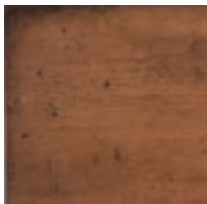

Most commonly referred to as "hand distressed" or "premium distressed" SELECT HD is precisely both!

The process in which we create SELECT HD is done by hand one piece at a time, resulting in no two pieces looking the same. SELECT HD is a finish that represents the natural hardships of time with random chain marks, wormholes and hand brushed stain and glazing, as well as edges being worn, darkened and rasped to create a unique look of old world charm. For this reason we cannot assure an exact match from the finish samples provided to our dealers to the finished product delivered to the consumer. Each piece produced in our HD finish will have its own uniqueness and character.

Exact matches are not achievable or guaranteed.

Our Sustainability Efforts

As a solid wood home furnishings supplier, with 1,000 + different products, raw material, and packaging, are in abundance. In an effort to be an environmentally conscious company Whitewood Industries takes the following steps.

All corrugated materials (cardboard) used in packaging and shipping are collected, compressed, bailed, and repurposed by a local recycling center. Whitewood Industries recycles 150,00 pounds of corrugated material each year.

Plastics bags used in packaging and shipping are collected, compressed, bailed, and repurposed by a local recycling center. Whitewood Industries recycles 10,000 pounds of plastics each year.

Damaged wood, or wood that does not meet our quality standards, is repurposed by a local wood recycler into various forms of particle board.

Whitewood Industries recycles up to 600 cubic yards of solid wood material each year. It is our utmost desire to carefully consider, and respectfully care, for our environment.

Total
Environmental
Impact

=

Whitewood Industries recycles
approx. 1,360,000 pounds of
materials each year.

Tables

Nothing is more intimate among friends and family than sharing a good meal, at home.

The worries of the world, during that time, simply go away and the present is truly that, a present, a gift.

There is joy in serving and also in being served. It is something to enjoy and cherish and it's something to be remembered.

Chairs

Chairs get more wear-and-tear than any other home furnishing. We sit on them, move them around, stand on them (come on, you know you do), lean back in them. We use them.

So, beyond the practical use of them needing to hold up to all that wear and tear, they also need to be comfortable and beautiful.

They make the difference in being comfortable and hanging out, or making a meal a long one or short one. They make the difference between our dining areas being ok, or being fabulous.

Chairs, ultimately, are a center point of the home. Ours are built to last and last. They hold up. They're beautiful, and most importantly solid wood and a solid value.

*Introducing a first. A chair with the comfort of home in mind,
yet made as closely to contract, also known as hospitality, standards as you'll find.
Contract, or hospitality, furnishings exceed general furnishing quality standards
and are meant to last a lifetime, even through everyday wear-and-tear.*

Benches

Nothing says CASUAL like a bench. Remember the days of picnicking? When the family would pack-up, head to the park on an excursion, BBQ, and chow down at a picnic table?

Or how about the old- fashioned Diner, when you and the crew would settle in, elbow-to-elbow, and munch down on a late or early breakfast and talk.

Benches are the ultimate in casual. They too add interest. They open a room by not taking up visual space with a back. So, whether you're visually making more space, or creating a hunker-down, elbow-to-elbow feel, benches are a great addition to any home.

High Dining

For a more casual look, high dining is the answer. Slip off a stool, grab the bread from the oven, and keep the conversation going. It's light and fun, relaxed dining at its best.

Stools

Stools are one of the most used furnishings in the home today, and not surprisingly, grace in some form or fashion, almost every home in America.

Stools sometimes get a bum rap. This unassuming piece of furniture is uber practical. It waits patiently under a counter, eager to support our posteriors, or it sits quietly in a corner, holding a potted plant.

Because it's light and compact, a stool can be used just about anywhere. It's ready at a moment's notice for impromptu seating and the best of them are sturdy and stylish.

Kitchen

Though we have our family rooms for "family" or our living rooms for "living", at the end of the day, no better togetherness is enjoyed than in the kitchen.

It's the hub of the home. It's where we prepare a meal, a snack, a coffee or a tea. It's where we come in from a long day, or start a new one. It's where we are and where we love to be.

Storage

When there's a place for everything, and when everything's in its place, we're comfortable and assured that all is right in the world.

Having ample, practical storage is an important part of taking care of the things we love and cherish.

It gives them a place, a place where they belong and for us to know where they are when we need them.

Occasional & Accents

A place to set a drink, a remote, a magazine, or some pretties, occasional and accent tables are not only about adding beauty to our spaces, they are also a must.

They accommodate. They're our own personal home butler and placed correctly they add to our comfort and well-being.

Juvenile

A collection of colorful, whimsical cake decorations. In the foreground, there are several swirls of frosting in rainbow colors (red, orange, yellow, green, blue, purple) and a pink flower-shaped swirl. A pair of silver tongs with blue handles is positioned over a pink swirl. To the right, there's a pink swirl and a white swirl with a red strawberry on top. In the background, more swirls and a chocolate swirl are visible on a wire rack. The entire scene is set against a solid orange background.
